

Lifetime Warranty

- Structural lifetime limited warranty.
- 25-year finish warranty for residential applications.
- 10-year finish warranty for light commercial applications.
- 100% pre-installation satisfaction guaranteed.

Precision Milling

State of the art machinery guarantees a floor of better appearance and superior durability. Because of the precision milling, we are able to guarantee against overwood.

Exotic Hardwood Layer

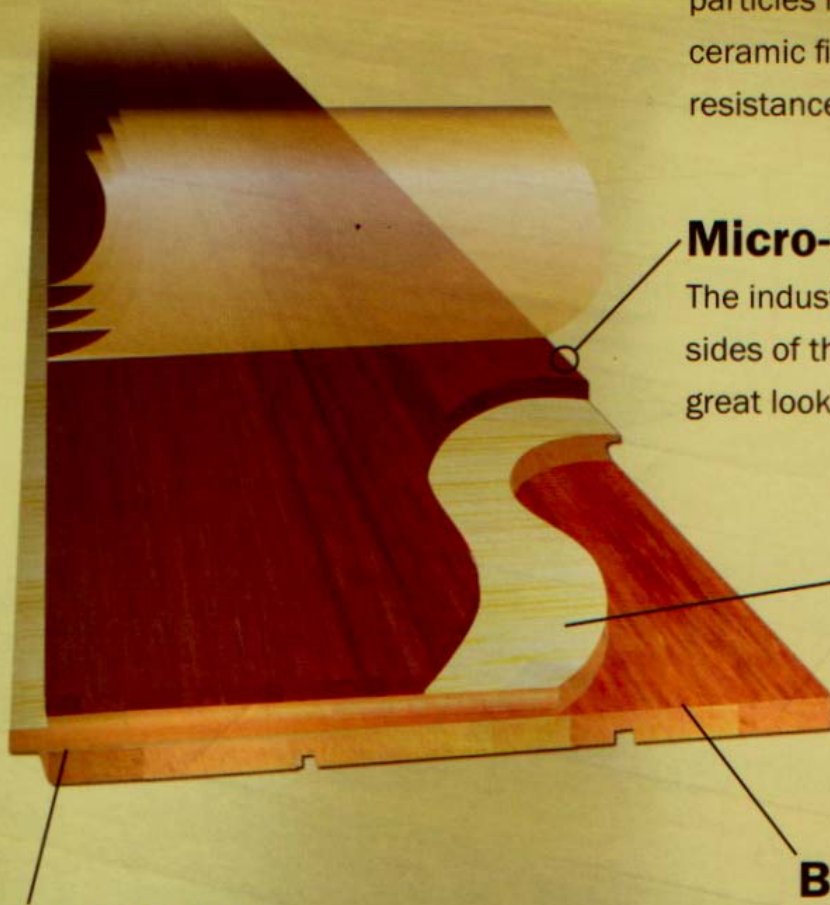

Exotic hardwood layer of approximately 3.5mm extends from the top of the plank to the tongue's staple-setting bevel.

Applications

- Glued down directly over concrete, at, above, or below grade
- Staple down/nail down
- Tongue and groove floating

Klumpff Ceramic Finish

High-performance Klumpff Ceramic Finish: acrylic urethane infused with aluminum oxide particles heated to crystallization. This advanced ceramic finish provides traction control, stain resistance and easy cleaning.

Micro-Bevel Joint

The industry standard micro-beveled joint, on all sides of the strips, provides a uniform edge for a great look and superior performance.

Bamboo Core

Cross-plyed bamboo center layer provides a high degree of structural stability and helps to prevent warping.

Bamboo Bottom Layer

The bottom layer runs perpendicular to the bamboo core, along the length of the board. It adds thickness and balance to the plank.

Bamboo Tongue

For staple-down application, the tongue runs the length of the board to absorb the staple.
